

MALLEOLUS DE SANCHOMARTÍN 2016

HISTORY

Named as the Sanchomartin vine plot, a 1 hectare vineyard that was planted by grafting clones from the oldest vineyards. The wines produced are tannic and have a marked acidity, which makes them ideal for ageing in oak and for the overripening.

CHARACTERISTICS OF THE HARVEST

The cool temperatures at the beginning of spring and the abundant rains slightly delayed budding in the vineyard. These late rains were of great significance for the rest of the grapevines' vegetative cycle, since the water reserves accumulated resulted in a year of abundant, balanced harvest of great ripeness.

WINEMAKING PROCESS

The alcoholic fermentation and maceration has been made in stainless steel tanks of small size at a controlled temperature for 28 days. After the malolactic fermentation in french oak barrels. It is aged in French oak barrels.

TASTING NOTES

Wine of a deep, dense cherry red colour. On the nose, the intense aromas of the Tempranillo assemble perfectly with ageing in the best wood. In the mouth, it is a faithful reflection of the sensations of the nose, elegant and complex. It is a full-bodied wine with structured tannins, rounded with a long, persistent aftertaste. An extraordinary vintage resulting in an exceptional wine."

TECHNICAL DETAILS

Appellation: Ribera del Duero

Soil: Clay-calcareous

Location: Pesquera de Duero

Orientation: Southwest

Malolactic F.: 30 days in french oak barrels

Variety: 100 % Tempranillo

Ageing: French oak barrels
