

POLVORETE

2020

STORY

Polvorete is a wine born to make the wonders of the Godello grape known the world over. A wine full of joy, youth and fun, which is above all easy to enjoy.

CHARACTERISTICS OF THE HARVEST

The weather in 2020 in El Bierzo was characterised by heavy rainfall in spring. The summer had mild temperatures with cool periods during flowering. The ripening period was quite fast, with vast temperature differences between day and night, increasing the quality of the grapes and obtaining a must with ideal characteristics.

WINEMAKING PROCESS

Fermented at controlled temperature in stainless steel deposits.

TASTING NOTES

Straw yellow in colour. The nose is subtle and elegant, with notes of the Godello variety, highlighting white flowers. The palate is fresh with balanced acidity.

TECHNICAL DETAILS

Apellation: El Bierzo

Variety: 100% Godello
