

POLVORETE

2022

STORY

Polvorete is a wine that was created to showcase the marvels of the Godello grape to the world. It is a lively, young and fun wine which is easy to enjoy.

CHARACTERISTICS OF THE VINTAGE

The year 2022 will be remembered for being dry and warm. The spring was characterised by scarce rainfall, which gradually disappeared in the summer months. Late rains arrived in August, which ensured the ripening of the grapes. It has been a warm year overall, but the microclimate of El Bierzo and the hillsides have mitigated the effects of the heat waves and have influenced the character and final quality of the harvest.

WINEMAKING PROCESS

Fermented at a controlled temperature in stainless-steel tanks.

ELEGIR | COMPARTIR | CUIDAR

TASTING NOTES

Straw yellow in colour, on the nose it has a base of white fruits characteristic of the variety, with light citrus notes that bring freshness. Despite its youth, there are hints of ageing on lees and a certain minerality. On the palate it is a wine of great balance between acidity and body, it is easy to drink and has a pleasant and refreshing aftertaste.

DATA SHEET

Location: El Bierzo

Variety: 100% Godello
